

The board encourages individuals and organizations to consider making a donation of real property, personal property, or funds to the school system. Donations, whether in the form of a gift or a bequest, foster community support for the schools and improve the school system for the benefit of students and others. As an expression of the board's gratitude, the superintendent shall provide for the appropriate recognition of donors.

A. SUITABILITY OF DONATIONS

The superintendent shall evaluate any donation offer in order to determine whether the donation is suitable for the school or the school system. Donations may not conflict with the school system's educational mission. In determining the suitability of a donation intended to benefit any program that is appropriately segregated by gender, such as a school athletic program, the superintendent must consider equity and Title IX issues in relation to overall funding and opportunities for participation.

Donations of real or personal property will be accepted only if the donor can demonstrate that he or she has clear and free title to the property. The superintendent also must consider any safety hazards associated with gifts of real or personal property. Donations must not impose any undue financial burden or obligation on the school system. Any donation that includes advertisements must be consistent with policy 5240, Advertising in the Schools, and the food and beverage marketing requirements of policy 6140, Student Wellness.

For computer equipment or other technological resources, the superintendent shall ensure that such items are compatible with minimum hardware and software standards set by the technology officer. Any donation from an E-rate service provider must comply with gift rules applicable to federal agencies.

B. ACCEPTING DONATIONS

Upon receiving an offer of any monetary or other donation to a school, the principal must provide a receipt issued by the school treasurer that states the nature of the donation and the purpose for which it is donated. The principal may accept donations to a school; however, such donations are subject to further review and approval by the superintendent and/or the board.

The superintendent may accept donations up to \$5,000 on behalf of the board. The superintendent shall report any accepted donations of more than a nominal value at the next board meeting. The board reserves the right to determine in each particular case the appropriateness of a donation and may accept or reject a donation as the board sees fit.

The superintendent shall make a recommendation to the board on the suitability of any donation with a value that exceeds \$5,000. After considering the superintendent's recommendation, the board will decide whether to accept the donation.

C. USE OF DONATIONS

Unless otherwise specified in a written agreement approved by the board, any accepted donation, including a capital improvement to school property, becomes the permanent property of the school system. Anything purchased with donated funds, including funds raised through a crowdfunding campaign, project, or platform, become the property of the school system, and the title to such property vests in the board. If the board at any time determines that property donated, or acquired with donated funds, is unnecessary or undesirable for public school purposes, the board may dispose of such property in accordance with state law.

A donor may request that a donation be designated for a particular purpose. However, the board reserves the right to utilize the donation as it deems appropriate. Any donation constituting revenues will be deposited in the proper account. The specific manner in which donated funds are expended for a designated purpose will be determined under the direction of the superintendent. The board has no responsibility and makes no promises to continue any program initiated with donor contributions once the donated funds are expended.

Before installation of major donations that will become a permanent part of the school facility or grounds, including, but not limited to, capital improvements to school property, such as additions, alterations, or renovations of new or existing facilities, and other improvements to school facilities or grounds, such as playground equipment, bleachers, scoreboards, outdoor lights, or fences, the board must approve the design, location, and construction material. Any such donation also must meet any required safety standards and comply with all applicable laws and regulations and board policies.
